DETAILED ACTION

Receipt is acknowledged of the Amendment filed 7 October 2003 and the Request for Continued Examination filed 20 October 2003.

Claim Objections

Claims 1-3 are objected to because of the following informalities:

- Claim 1, line 14: "triflourides"; should be --trifluorides--.
- Claim 3, line 1: "claim"; should be --claims--.

Appropriate correction is required.

Allowable Subject Matter

Should the above objections be overcome, claims 1-3 would be allowable over the prior art.

The following is a statement of reasons for the indication of allowable subject matter: The best prior art of record discloses a discharge lamp having a non-luminescent yttrium film to counter act the transport of mercury and the prior art also discloses a discharge lamp having a yttrium trifluoride or yttrium oxyfluoride coating used as a phosphor layer. However, the prior art fails to teach or fairly suggest a discharge lamp having a non-luminescent yttrium trifluoride or yttrium oxyfluoride coating to counter act the transport of mercury.

Conclusion

This application is in condition for allowance except for the following formal matters:

As shown above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
